## OUR MISSION

ADS is intensely focused on providing timely and cost effective Operational Products and Logistics Services Solutions our clients need to increase their operational effectiveness, complete their missions, and make this world a safer place.

As part of our mission we have created GEARED UP – our monthly newsletter. GEARED UP is your resource for the latest operational equipment available through ADS. We look forward to hearing your thoughts on anything you would like to see in future issues.

Please contact us at [adsnewsletter@adstactical.com](mailto:adsnewsletter@adstactical.com) with any questions or comments.

VENDOR NEWSLETTER • VOLUME 14

### Inside this Issue:

- 1 FORCEPROTECTOR GEAR
- 2 BASE-X
- 3 TACTICAL MEDICAL SOLUTIONS
- 4 STERLING ROPE
- 4 VECTRONIX
- 5 SUREFIRE
- 6 PRINCETON TEC

**OPERATIONAL EQUIPMENT  
& LOGISTICS SOLUTIONS**

# LIGHTFIGHTER-SSW

## THE ORIGINAL COLLAPSIBLE FOOTLOCKER

- Two Marking Windows On Lid
- 1000 Denier Nylon MIL-SPEC (MIL-C-43734D Class 3)
- 400 Denier Nylon Packcloth
- 1050 Denier Nylon Ballistic
- 360% FPG FoamTech padding system (6Lb PE laminated to 1.5LB PU)
- 35oz Hypalon
- Nexus Ghillie TEX Hardware (IR signal reduction & increased field durability)
- MIL-SPEC webbings (MIL W 17337)
- MIL-SPEC binding tapes (MIL T 5038)
- #10 YKK Zippers with locking capability
- All zippers have paracord pulls
- Nylon Bonded VT295 Thread
- 16 Bolt Systems
- 304 Stainless Steel Wheel Housings
- Over 8500 cu in. capacity

**Dimensions:**

- Main: 31L" x 14W" x 16D"
- Colors Available: ACU, Coyote Tan, Black

Item Number: **FOR60**

# FOR46 FPG

## HYBRID DEPLOYMENT BAG

Over 50,000+ Deployed to Combat. The FPG HDB is THE combat duffel of choice for 10's of thousands of soldiers. The Original Collapsible Footlocker to live out of for long durations.

**Dimensions:**

- Regular 32L" x 18W" x 16D"
- Extended 40L" x 18W" x 16D"

**Key Features:**

- 360 degree FPG FOAMTECH protection
- Side opening 'Dry Pocket' feature
- 1000 denier Cordura lined (completely self contained)
- Single #10 YKK slider opens Dry Pocket
- Single #10 YKK slider extends the Dry Pocket an additional 8" on the bag
- Internal mesh pocket on lid
- Internal mesh/cordura pocket which acts as a divider bag within the bag

**External Construction: 1000 denier milspec Cordura**

**Internal Construction: 400 denier nylon lining**

- Removable FPG shoulder straps (low profile)
- 2 heavy duty external carry handles on each side
- Each seam is double stitched and stress points are bar-tacked

Item Number: **FOR46**

# TOTAL SYSTEMS PROVIDER

Base-X® is the leading provider of rapid-deploying mobile infrastructure for military, homeland, and industrial field operations. Base-X Shelter Systems™ are recognized around the world for its proven product performance in the harshest environments and for its first class training and support. Our full line of products gives you turnkey solutions for your mobile application, whether it is command and control, medical or base camps.

**All-Hazards, All-Environments Ready:** The heart of all Base-X® systems begins with the exceptional performance of our patented folding-frame shelter, which is rapid-deploying, light-weight, durable and easy to use. Expeditionary excellence®—your lives depend on it, so accept nothing else!

### A MODEL 307 SHELTER

The Model 307 provides an interior clear span of 18' wide by 35' long. This shelter will house between 14-18 personnel. It is also ideal for brigade and regiment size command and control, medical, communication, and logistics operations.

- Includes outer cover, frame and carry bag.
- Includes carry bag & liner with pre-installed floor, electrical wiring, and Hvac plenum.
- Includes package 1, package 2 & accessories (repair kit, stake kit, wind lines, & mallet)

Item Number: 307

### B SHELTER SYSTEM HEATER

The most compact heater in the MV series, the 62-MV60CGP is exceptionally useful when space is critical. As with the entire MV series it is constructed to withstand rough treatment and the harshest of environments. This heater incorporates several built in safety features. These features include: a safety control connected to a flame sensor which will shut down the heater if it fails to ignite or the flame goes out, a circuit breaker that protects the heater power surges, and a duct overheat sensor that shuts the heater down if the output temperature exceeds 270 degrees F.

Item Number: 62-MV60CGP

### C SHELTER SUPPORT TRAILER

- Equipped with a trans axle mounted Generator and ECU to support rapidly deployable shelters for tactical operation centers, command posts and mobile surgical hospitals.
- HMMWV towable and air transportable.

Item Number: 35KWGET

### D MODEL 505

- Clear interior span of 26'.
- 8 entry and egress points.
- Electrical outlet every 5'.
- Hang points every 5' bear 100 lb. weight load each.
- Integral liner with floor and HVAC plenum.
- Command Post, Medical, Maintenance.

Item Number: 60KW

# SOF™ TACTICAL TOURNIQUET

The SOF™ Tactical Tourniquet is one of the top performing tourniquets currently available. It is the tourniquet of choice for many of the world's most elite and experienced warriors who have selected it for its outstanding ability to control severe bleeding, high level of reliability and ease of application. While some military units have replaced their issue tourniquets with the SOFTT, others military units have implemented SOP's stating that the SOF Tactical Tourniquet is to be used on all lower extremity bleeds. That means the SOFTT is the tourniquet that trusted to control the most severe extremity hemorrhage on the battlefield.

Item Number: **SOFTT-NH**

# FOXTROT™ LITTER

The Foxtrot™ Litter is small enough to attach to your kit or another bag, but is still functional in a combat or rescue environment. It provides a rapid means of casualty movement without compromising durability, flexibility, or the individual's ability to maneuver through the most demanding environments. Casualties can be dragged or carried off target without excess time spent rigging and securing. It also eliminates the wait time for a conventional litter to be brought from the breach point or a support vehicle.

Item Number: **F-LITC**

## F4 - FIRE FIGHTER EGRESS DEVICE

Sterling Rope announces a new innovative escape device that gives firefighters an advanced, yet simple tool for emergency egress. The F4's sleek, lightweight design (6 oz) is certified with Sterling's escape ropes, such as the FireTech 32™. It is engineered to allow easy horizontal movement. The autolocking feature adds security and confidence for a hands-free exit of a structure. The F4 can be used by all sizes of firefighters. The low profile shape packs easily in many bag styles and is available with multiple anchor options.

UL certified to NFPA 1983, 2006 Edition for Escape.

- Weight - 6 oz.
- Length - 6"
- Width - 2"
- MBS - 3,035 lbs (13.5kN)
- Approved ropes: Sterling FireTech 32™, EscapeTech™, T-Safe™, RIT 500™, 8mm PER
- Colors: Red, Black

## MOSKITO

MOSKITO contains all functions necessary for 24/7 target acquisition: day and night observation, range finding, and angle measurement. Options include a C/A code GPS receiver, Bluetooth module, and cable for data transfer to C4I systems. The Laser rangefinder, and the day and night channel are matched to each other and optimal for close and medium range applications to 2500 m. The result is an ergonomic, robust, compact, lightweight piece of equipment.

- Purpose-built, fully integrated device
- All-in-one unit for observation and measuring
- Same user interface day and night
- Runs 24 hrs on 2 commercial batteries
- Small and light for maximum agility
- Improved sustainability and simplified logistics
- Laser Range Finder
- Digital Magnetic Compass
- PLGR/DAGR interface
- C/A GPS (optional)
- Bluetooth (optional)

Item Number: **MOSKITO**

The SureFire Helmet Light is a compact, lightweight, watertight, multiple-output unit that can be attached to military PASGT and TC2000 Modular Integrated Communications Helmets (MICH). Its ergonomic switching can easily be operated with either hand, even while wearing heavy gloves.

## SUREFIRE HELMET LIGHT

The Helmet Light uses a single 123A lithium battery, three separate switches, and six light emitting diodes (LEDs) to produce three different types of light at multiple power levels:

- Primary light: three 5mm LEDs with low, medium, and high output levels
- Secondary light: two 5mm LEDs with low, medium, and high output levels
- Infrared IFF light: one 3mm, 1.72mW infrared LED with continual blinking output.

White LEDs are for general-purpose, close-work illumination. Colored LEDs serve the same purpose but with a low light signature that doesn't compromise night-adapted vision. Infrared LEDs are for use with night-vision equipment. The solitary infrared LED serves as a personal blinking Identity Friend or Foe beacon for identification purposes. The Helmet Light can be easily removed from the helmet mounting bracket for servicing or transferring to another helmet. It can also be used as a handheld illumination tool or attached to a MOLLE or ALICE service vest with its Vest Clip.

- Red light is useful for reducing your light signature and preserving night vision.
- Blue light makes red fluids such as blood stand out, making it useful for medics. It also reduces your light signature and preserves your night vision.
- Infrared is used with night-vision equipment.
- Yellow-green light is compatible with night-vision systems and is viewable with the naked eye. Preferred by aviators and air crew.

MOLLE Mounting Clip

Model	Item Number	NSN's
Primary – White; Secondary – Blue	HL1-A-TN	6220-01-549-4174
Primary – White; Secondary – IR	HL1-B-TN	6220-01-549-4184

MOLLE Mounting Clip	Z71	6220-01-549-4288

With over 35 years experience, Princeton Tec continues to lead the way in hands-free lighting innovation. Our tough and powerful lighting equipment is designed for the US Military, by the US Military.

APEX® PRO

## APEX® SERIES DUAL POWER BERRY COMPLIANT HEADLAMP

The Apex is the pinnacle of waterproof LED headlamp design, boasting up to 130 lumens of output. With its 4 light levels, safety flash mode, and impact-resistant design, the Apex is an ideal headlamp for any Warfighter. The Apex combines a regulated Maxbright LED with 4 regulated Ultrabright LEDs, for constant brightness on all modes. Switching modes has never been easier – the dual switch system allows you to independently control the intense, smooth, long-range lighting from the Maxbright LED, and the wide-angle, close-range lighting from the 4 Ultrabright LEDs. Proprietary heatsink technology allows the LEDs to burn brighter and longer. The Apex is compatible with alkaline, lithium, and rechargeable batteries.

APEX®

### APEX® PRO

- 130 Lumens
- 35 Hour burn time
- 1 Maxbright LED
- 4 Ultrabright LEDs
- Regulated for Constant Output
- High, med and low output settings
- 2 CR123 Lithium included
- Waterproof
- 173 Grams

### APEX®

- 130 Lumens
- 150 Hour burn time
- 1 Maxbright LED
- 4 Ultrabright LEDs
- Regulated for Constant Output
- High, med and low output settings
- 4 AA Batteries included
- Waterproof
- 279 Grams

### Options:

green, red or white Ultrabright LEDs
